

# AUTOMATE AND ADD INTELLIGENCE TO YOUR OPERATIONS.

Liberty Business Encore is the only solution that allows companies of any size and industry to digitize manual processes and manage their entire mobile operation in a single application for their specific business needs.

## Liberty Business Encore Mobile Solutions

### Digital Punch Clock

Digitize your paper forms with electronic forms that can be filled out directly on a smartphone or tablet. Employees can include images of the work, collect signatures, and send emails to the client instantly. The administrator can review and work on forms more quickly as they will receive them immediately.

### Job Dispatch

Send and manage work orders from the office to your employees on the go, quickly, efficiently, and in advance. Locate your closest employees through GPS and assign tasks.

### Electronic Forms

Digitize your paper forms with electronic forms that can be filled out directly on a smartphone or tablet. Employees can include images of the work, collect signatures, and send emails to the client instantly. The administrator can review and work on forms more quickly as they will receive them immediately.

### GPS Tracking

Track the location of remote employees through GPS tracking for mobile phones and tablets. GPS tracking can be used in conjunction with dispatch, allowing you to see the available workers closest to new job sites.
